# Single-Stage and Fixed-Speed Gas Furnaces

## Engineered for Quality

More than just better indoor comfort, we want you to feel comfortable investing in a product that will perform when you need it most. Each Westinghouse furnace is checked approximately 234 times during the manufacturing process then run-tested to check operation performance. In the final analysis, computer-automated testing is performed to capture operation data for future reference should your contractor ever need it.

Westinghouse furnaces are built with proven components to provide safe, clean and reliable comfort year-round. For example, our stainless steel secondary heat exchanger has a limited lifetime warranty.

## 92.1% & 95% AFUE

### Single-Stage, Fixed-Speed Gas Furnaces

**Durable, stainless steel secondary heat exchanger**

provides extra high efficiency performance and is backed by a limited lifetime warranty.

**Westinghouse furnaces feature a SmartLite® Control Board**

to increase the life of the igniter beyond the standard 20-year life expectancy. It contains a program that varies the igniter heat-up time interval and adapts the igniter time to the characteristics of the furnace. Control accommodates igniter variations by “learning” the heat-up characteristics of individual igniters to ensure reliable ignition, but avoid overheating.

This upgrade has been accomplished by microchip software reprogramming and proven circuitry and components. The introduction of this control represents a significant advance in hot surface ignition furnace technology.

**Cabinet is fully insulated to shield operation sound**

making this furnace one of the quietest available today. Its Silicone-protective polyurethane coating resists scratching and prevents rusting to keep your furnace looking new for years to come.

*\* Dollar amounts computed at \$.092 ccf, for 2,500 full-load heating hours and a system rated at 60,000 Btuh. Actual costs may vary depending on climate conditions, fuel rates, and patterns of usage according to individual lifestyle.*

# Leading Warranty

**When a furnace is truly built to exacting standards of quality and durability, the manufacturer's confidence shows in its warranty.**

At Westinghouse we offer a 10-year limited warranty on all parts and a 10-year Quality Pledge at no extra cost (product registration required). With our 10-year Quality Pledge, we will replace the entire unit should the heat exchanger fail in the first 10 years.

Westinghouse furnaces come ready to add other Westinghouse accessories like programmable thermostats, whole-home humidifiers, air cleaners, HEPA systems and more. If allergens, dust, mold, pet odor, dry air, temperature control etc. is a problem for you or your family members, ask your contractor how he can design a Westinghouse system to reduce common irritants, and increase comfort throughout the home for everyone.

To learn more about our product warranties, ask your Westinghouse contractor, or visit us on the web at [www.westinghousevac.com](http://www.westinghousevac.com) for details.
